

MFP - 800 - P

Firefly Fire Pumps Pvt. Ltd. is an ISO 9001:2008 certified company, having expertise in designing and manufacturing fire pumps for last 20 years

Over the years we have consistently and successfully pioneered the field of fire fighting pumps by delivering innovative products to suit the demands of fire professionals. This way we believe in contributing our share for the betterment of fire fighting community. Firefly this day is a multi product and a multifaceted company, manufacturing a wide range of fire fighting pumps and regularly exporting its products to various countries.

A well equipped infrastructure, state of the art manufacturing facilities and an all India sales and service network has helped us to be recognized as a mainstay in the Indian subcontinent.

Outstanding features of FloMax portable fire pump

Light weight, stainless steel cradle carried, fitted with light Aluminium Alloy centrifugal pump, having one 100 mm male round threaded suction inlet and Two 63 mm instantaneous female delivery outlets located at each side of the pump. Vane pump type priming for rapid priming. Briggs and Stratton "Vanguard" gasoline engine of 18 HP V- twin overhead valve (OHV) type. The complete pump unit is suitable for effective fire-fighting and for dewatering purpose.

Advanced Rapid Vane Pump Primer

Technical Specifications

Model	MFP - 800 - P
Fuel	Petrol
Engine Power	18 HP
Engine RPM	3600
Fuel tank capacity	8.5 liters
Pump Type	Centrifugal, Single stage
Suction	100mm (IS:902)
Delivery	63mm x 2 with screw down type valve (IS:901)
Typical dimensions LxWxH in mm.	660 x 520 x 623

Rated Performance (MFP-800-P)

Out put (lpm)	Pressure (bar)	Suction lift
500	6.5	3.0 mtrs.
800	5.0	3.0 mtrs.
1400	3.0	3.0 mtrs.

Salient Features of Vane Pump Primer

- Very rapid priming. (up to 8 mtrs in less than 30 sec)
- 100% reliable.
- Positive priming.
- Gun metal construction for longer life.
- Compact in design & light weight.

Range of Portable Fire Pumps

Petrol Portable Models : ■ 150 lpm @ 20 bar
Diesel Portable Models : ■ 1100-1600 lpm @ 7 bar
■ 275 lpm @ 4 bar
